

# Training Video Now

The graphic shows a large, blue, 3D-style 'TVW' logo in the foreground. In the background, a group of people is seated at desks in a classroom or training room, looking at a large screen displaying a grid of video thumbnails. The scene is dimly lit, with the primary light source being the screen and the people's screens.

Over 1,300 training video titles available, all at no charge

The TML Risk Pool is excited to announce a new training resource now available to our members – Training Video Now – a streaming “rental” platform designed to support video-based training. This service allows for the streaming of video content on a variety of safety and other topics, many of which are available in both English and Spanish. Get the training you want when you want it in streaming format using a state-of-the-art portal. New programming is produced and distributed consistently throughout the year.

## How It Works

Risk Pool Members are allowed to stream up to three different titles per month, with a 14-day viewing period in which the video can be viewed as many times as needed. The system is designed for group training settings, such as safety or tailgate meetings. Members may preview as many titles as needed and this does not count towards the monthly until the video is utilized. Member entities should assign a “coordinator” to best leverage and manage usage.

## What’s Included

In addition to streaming videos, many topics are supplemented with support materials, including a Leader Guide and Quiz to assist with a more comprehensive learning process and outcomes for facilitators and participants. Suggested Learning Plans are also available.

## How to Get Started

Use the direct links below or click on the “Find Training” button on the Risk Pool’s website at [www.tmlirp.org](http://www.tmlirp.org).
